OWL

All mentioned options in this catalogue are customisable. We understand our furniture as series and therefore objects in constant evolution, adapting to different people and projects. Each of our designs is handmade in our workshop, using high-quality materials from local suppliers. This practice allows us to be conscious and sustainable, creating objects that stand the test of time. Thickness material may vary between 1-3mm depending on the raw materials sourced.

All prices listed within the catalogue are retail prices. VAT and transportation costs are not included. We apply trade discounts depending on the order and quantities placed. Please contact us for more information.

ALABASTER SERIES

Alabaster is an evolving series in which alabaster is shaped into a functional play of vertical, geometric forms. The series has grown from early explorations with the material in our workshop, initiated by the desire to experiment with a material not commonly used in furniture today. Bringing in contemporary ways of working, the Alabaster series reduces the material to its raw essence while alluding to its rich history of ornament and sculpture.

As we explored the Alabaster series, we have learned how to work the material in distinct ways. If you are interested in working on special projects or particular objects using alabaster, please get in touch with our studio.

LA PEPINO
SERIES

La Pepino is a collection of seating variations, built on the repeating pattern of cylindrical cushions, and supported by an organically shaped base. Every piece comes fully upholstered in customisable fabrics, and plays with the different points of contact between cushion and body.

One variation of the collection (chaise and ottoman) comes with a metal base, which is visually lighter than its plywood counterpart. In this variation only the cushions are upholstered, and depending on the chosen fabric, it becomes suitable for outdoor seating.

CAPSULES SERIES

Capsules is a furniture series based on the evolution of the geometric form of a capsule, which consists of a cylinder with two hemispherical ends. Playing with the positive and negative space of its shape, the collection becomes an exploration of rounded and organic shapes.

The design of this series is open to being produced in various materials. As a base, we’ve chosen solid wood, lacquered MDF and alabaster, but the series lends itself to other materials upon request. If you would like to explore different materials with us, please send us an email.

	Lacquered MDF	2700 €

FORMICA SERIES

Formica is OWL’s first series, marking the beginning of the brand and workshop. The collection presents a series of seating variations in baltic birch plywood, a neutral material fit for any type of home or interior design project. As a means to be open and customisable, the series comes with a collection of add-ons in formica, which allows for a more playful and colourful design.

OWL is a Barcelona-based design studio led by Alfredo Lopez, which designs and manufactures unique furniture and objects, mainly but not exclusively in wood. As a practice, OWL understands its furniture collections as series and therefore objects in constant evolution, which allows them to adapt to different people, projects and spaces.
